DO YOU

remember a short while back that a large part of the First. Second. Third and Fourth wards, all of the University Heights and the Highlands was vacant waste land which you could have bought at about any figure. How about it today? The change has been brought about by reason of our climate, chiefly the winter climate, even with the primitive living conditions that prevailed up to the last few months. So what will be the result when the pleasure and health seeker is assured of finding here all the mod-ern conditions that he finds in less desirable winter resorts. In addition our nat-ural resources are beginning to be developed. Our payroll, manufacturing and wholesale business is now developing in earnest. This all means one of the most satisfactory residential and business cities in country.
